

Congratulations Central Freight Lines!

At Central Freight Lines safety is a priority for each of us. Safety is a topic of discussion at our weekly driver meetings and conference calls with management. Numerous Safety Awards and Plaques of Recognition line the walls of both our Waco and Dallas facilities, dating back years.

Once again our focus on safety had achieved us another honor.

We have been chosen by the Texas Motor Transportation Association as the carrier with the lowest *Accident Frequency Rate* in the five to ten million mile class.

Central Freight has been awarded **first place** the Texas Truck Safety Contest.

The plaque will be presented to Central Freight during the Texas Motor Transportation Associations Annual Conference in San Antonio later this year.
