

Central Freight Lines has sustainability, financial strength and an infrastructure designed to intelligently support the logistical needs of North America's largest manufacturing, retail and distribution enterprises.

Central Freight Lines continues to invest in transportation technology that provides our customers with real-time data on their shipments and allows the customer to access customized reports at their convenience.

Central Freight Lines gives the customer the option of receiving automatically generated e-mail notification of both pickup and delivery. E-mailed invoices are available, as is ACH payment of invoices, eliminating unnecessary paperwork and security risks.

Central Freight Lines entire team is focused on: SAFETY, SUSTAINABILITY AND SERVICE.

Central Freight Lines in addition to their expansion covering all points in Georgia, has strategically opened a new facility in Stephenville, TX to accommodate the growing market in the region. Central continues to deliver ever-improving value to our customers.

Central Freight Lines on-time service product allows our customers to confidently ship with us. When time is of the essence, Central's **Time Definite Services** include both guaranteed and expedited options via their **First Ground** and **Priority One** products. Guarantee our shipment delivery by Noon or 5:00 PM.

Central Freight Lines claim ratio is .80%, well below the national average and one of the best in the industry. Our low claim ratio is a direct result of our commitment to continuous employee training in best practices in all phases of their jobs and our investment in new equipment and tools such as load tables and load bars to avoid potential damages.

Central Freight Lines is proud to be celebrating 90 years of service to the shipping public.

Central Freight Lines has the capacity to provide **pool distribution** options to the shipper looking to build efficiencies into their operation. The Central footprint is the optimum network to supply a regional distribution stop off in either Texas or southern California.

Central Freight Lines is the first LTL carrier to commit to supplementing their current diesel fleet with Compressed Natural Gas tractors and utilize them on a daily basis. 93% of Central's San Antonio local operation is running with clean operating, CNG, heavy duty tractors along with Central's Texas line haul moves are covered by the efficient CNG equipment.

Central Freight Lines opened their third CNG fueling station to provide the necessary infrastructure to support their growing CNG fleet. The stations are located in Fort Worth, San Antonio and Houston and are open to the public as well.

Central Freight Lines was awarded the Natural Gas Vehicle Achievement Award. Central was recognized as a national innovator, early adapter and outstanding leader with vision to advance natural gas as a vehicular fuel, presented by NVG America.

Central Freight Lines is an environmentally responsible member of the community and has partnered with the **Environmental Protection Agency** in supporting the SmartWay Transport Partnership in their initiative to consider the environment in everything we do.

Central Freight Lines received 1st Place Award in the 2015 Texas Trucking Association's Truck Safety contest. In cooperation with the American Trucking Associations, the TXTA presented Central Freight with this outstanding achievement award for highway safety. Within the past 25 years, Central has earned this honor 17 years.
