

PRESS RELEASE

4 Million Miler Awarded to Central Freight Lines Driver

Gary Babbitt drove his first mile in Hamilton, Texas, a 2.9 square mile town with a population of 2,700. In a country town in the heart of Texas, it was pretty easy to avoid traffic problems. Since joining the Central Freight Lines family of drivers, Gary has driven a few more miles; **4 million to be exact**, and he accomplished it with an outstanding driving record.

Gary Babbitt, a 33 year professional driver with Central Freight Lines in Dallas has achieved the 4 Million Miler Award. Gary has driven 4 million miles for Central Freight without one accident, providing him with a much sought after record for his 32 years of driving. Gary states, “We have a Safety Book of Rules, guidelines for the professional driver; my daily goal is to follow those rules.” “Those guidelines have kept me safe on the road, that along with my family, and my extended family of fellow drivers.” “It all goes back to the people we have met along the way” said Gary, “Central gave me my opportunity, my safety trainer, Gary Don, gave me the tools and I had the loving support of Betty, my wife of 41 years, who helped to raise my two perfect children”. His accomplishments do not stop there. Being focused on becoming the best in his profession, Gary is a Certified DOT Advanced Online Master Certificate holder, enjoyed 20 years as a Certified Orientation Instruction, 10 years as a Certified Driving Instructor and not surprisingly, a 3 time winner of the Presidential Citation Award.

Gary is an awesome role model for his two grandchildren, “If you walk the talk, follow the rules, let your intuition guide you, allow for Divine Intervention and respect your fellow drivers, you can’t do any better than that,” says Gary.

“Here at Central Freight Lines, we have some of the most talented drivers in the industry, says Don Orr, President & CEO, we are fortunate to have Gary as part of our team sharing his valuable knowledge and experiences with our new recruits”
