Dallas, TX (May 21, 2010) In the transportation industry a unique milestone for the Professional Truck Drivers is to achieve one million miles of safe driving without an accident. This is an elite status that sets them apart from all other drivers.

**Ron Fuller**, with 34 years of accident free driving at Central Freight in Dallas, has surpassed that goal. Ron has been awarded the 4 Million Miler Award which represents an unblemished record during his career with Central Freight. “You have to have a passion for what you do” says Ron, “that is what makes you good.” “I take great pride in having earned this acknowledgement, but driving is what I do, and every day I go out there and do the best I can”. “Sharing this with my wife and 2 daughters makes it even more meaningful”. Ron also holds a Certified DOT Advance Online Master Certificate, 10 years as a Certified Driving Instructor, 6 years as a Certified Orientation Instructor and a 3 time winner of the Presidential Citation Award for safety.

“We are proud of Ron and what he has accomplished,” says Don Orr, President & CEO of Central Freight. “Our company was founded on the premise of establishing a world class carrier, powered by individuals like Ron, values based individuals who share a common vision and come to work daily with a powerful mission; to serve the customer.”

Central Freight Lines is a privately held Common Carrier providing service to 49 States. Headquartered in Waco, Texas, Central Freight Lines has a rich history of providing transportation to emerging businesses and Fortune 500 industry leaders since 1925.
